SUMMARY

Skilled Java Developer with 4 years' experience in software development activities, seeking for a challenging role to make use of my skills to achieve goals of the company.

EXPERIENCE

Deloitte (Hybrid - Hyderabad)

Sep 2025 – Present

Analyst

Client: Verizon

- Currently working as a Java Full-Stack Developer at Verizon, engaged in the design, development, and optimization of enterprise-level applications where we delivered production-grade enterprise solutions .
- Gathering end-to-end requirements and delivering solutions by collaborating closely with business stakeholders and clients in an Agile environment.
- Developing both backend and frontend components using Java, Spring Boot, React, and JSP to build scalable and user-friendly applications.
- Actively involved in defect resolution, debugging, and performance optimization to ensure application stability and reliability.
- Writing robust unit tests using JUnit (Mockito framework), ensuring high code coverage and maintaining application reliability.
- Proficient in database development, including writing complex SQL queries, stored procedures, and performance tuning.
- Implementing and enhancing application security using industry best practices (authentication, secure coding).
- Collaborating closely with cross-functional teams—including QA and DevOps—to ensure smooth integration, code quality, and timely delivery.

June 2025 – Sep 2025

Analyst

Client: Confidential

- Performed in-depth technical code reviews and impact analysis across 7 enterprise applications, uncovering >5000 impactful issues.
- Identified critical risks such as hard-coded passwords inside codebase, missing WHERE clauses in SQL queries, and absent null checks and many more
- Delivered insights that enabled leadership to present risks effectively to the client, strengthening trust and positioning Deloitte for future business opportunities.

LTIMindtree (Hybrid - Chennai)

March 2022 – June 2025

Software Engineer

Client: CITI Bank

- Developed executable code and SQL queries based on business requirements, boosting project outcomes by 25%.
- Enhanced user experience by using the Chart.js library to display personalized data through interactive charts.
- Designed and maintained RESTful APIs using Spring Boot, ensuring reliable and scalable architecture.
- Optimized Database performance(SQL queries), resulting in a 30% performance improvement and faster data processing.
- Conducted regular Black Duck scans, reducing vulnerabilities by 30%.
- Performed code analysis with SonarQube, achieving a 35% bug reduction, >90% JUnit coverage with Mockito, and eliminated 100+ code smells using SonarLint.
- Utilized JIRA for comprehensive defect tracking and streamlined issue resolution.

TECHNICAL SKILLS

Languages: Java, JavaScript, JSP, FTL, Chart.js, SQL, React.

Technologies/Frameworks: Spring Boot, Spring MVC, Java J2EE, Microservices Frameworks, IBM Liberty Server, MySQL, Oracle SQL, Bootstrap, Tomcat, J-Frog, Jenkins, AJAX

Developer Tools: IntelliJ, GitLab, VS Code, Eclipse, Postman, JIRA, Confluence, Bitbucket, GitHub Copilot etc

CERTIFICATIONS

Oracle Certified Professional: Java SE 11 Developer

Microsoft Certified: Azure Fundamentals(AZ-900)

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

EDUCATION

MLR Institute of Technology, Hyderabad

B.Tech

EXTRACURRICULAR

- Involved in Corporate Social Responsibility initiatives, educating rural students.
- Member of Telangana Information Technology Association (TITA) since 2019.
